HOME BOOK

ART handleless - oneLine

The simply clarity of the aesthetic reduced kitchens are expressed by straightforwardness, reduction to the essential and precision.

- No bottom C-channel handle
- All base units have only one L-channel handle under the worktop
- Unified lining up the doors because of the grid height
- Minimum appearance of the joins (4 mm) between the bottom drawers and pull-outs
- The bottom drawers and pull outs, which can't be opened by the L-channel handle, will get the opening system Tipmatic Softclose as standard
- Same visualization for the tall units
- Can be combined with hinging units from the ART range

Tipmatic Softclose:
- factory-mounted mechanic opening assistance
- milled into the bottom shelf of drawer or pull-out

Utility room

4

Open shelf tall units for washing machines or dryers

Tall unit for provisions

Tandem door shelf for ART handleless

Tall unit for provisions

Tandem swivel pull-out for ART handleless

Base unit

Base units with floor level doors for ART handleless

The Golden M – the mark for quality-tested furniture
The quality mark "Golden M" is an award for approved furniture regarding quality, safety, as well as health and environmental protection. The "Golden M" is awarded by the Deutsche Gütegemeinschaft Möbel e. V. (German quality control association).
The RAL-quality mark is based upon 55 years of research, laboratory examination, practical tests, comparisons and scientific exchange – an excellent basis for carefree living, giving you certainty while buying furniture.

The collection / models bearing the emission label comply with the fundamental award criteria for the emission label of the Deutsche Gütegemeinschaft Möbel e. V. in their respective category.
